The 25th International Symposium on High-Performance Computer Architecture (HPCA) provides a high-quality forum for scientists and engineers to present their latest research findings in this rapidly-changing field.

HPCA-25 will be held at Marriott Marquis Washington, D.C., in conjunction with the 24th ACM SIGPLAN Symposium on Principles and Practice of Parallel Programming (PPoPP-2019), the 17th International Symposium on Code Generation and Optimization (CGO-2019) and the 10th International Conference on Compiler Construction (CC-2019).

## Call For Workshops

- Title of the workshop
- Organizers and their affiliations (including short bios)
- Description of main objectives
- Sample call for papers, including the workshop's main topics
- Expected duration of the workshop; i.e., 1/2 day, full day, or 2 days
- If the workshop has been held before, the location (i.e., which conference), date, workshop program, the number of published papers (if any), and number of attendees at the last event

## Call For Tutorials

- Title of the tutorial
- List of organizers/presenters and their affiliations (including short bios)
- Description of main objectives
- A list of topics to be covered, including format (e.g., talks, demos, etc), target audience, and pre-requisite knowledge
- Expected duration of the tutorial; i.e., 1/2 day, full day, or 2 days
- If the tutorial has been held before, the location (i.e., which conference), date, tutorial program, and number of attendees at the last event
